

OUR GRANTMAKING CHARTER

WHO WE ARE

We are an innovative and ambitious grantmaker, accelerating social progress and creating a fair and sustainable future for us all.

We amplify the impact of civil society to inspire and influence donors to promote effective, efficient and transparent grantmaking.

WHAT WE DO

We deliver tailored, transformative grantmaking programmes in the UK and internationally that are inspiring, brave and bold.

We listen to our grant holders, act on what we hear and work together with donors and colleagues across CAF to inspire investment for transformative grant funding.

HOW WE WORK

Integrity

We ensure fair and transparent processes, providing the right grants at the right time, and supporting charities to build their resilience.

Equitable and accessible grantmaker

Our goal is inclusive programmes that contribute to accelerating progress in society, moving us all towards a fairer and brighter future.

Sustainable and effective programmes

We use our expertise and resources to design and deliver programmes. Good grantmaking requires time, investment and commitment, and our fees reflect the expertise we bring.

Together We Give More

Our grantmaking is underpinned by the principle of effective collaboration: through the funds awarded, co-design and partnerships so that our programmes deliver greater impact.
